PROFILE

I am a former Automotive Engineer turned Fullstack Developer. I have spent years building my skills in becoming the voice of the customer; understanding the wants and needs of customers and turning them into a reality. I am here to apply these skills to your web development needs.

PROJECTS

CODE MENTORING - PROJECT CM - REMOTE
Volunteer| Jun 2020 - Current

As part of Code Mentoring Toronto, working alongside a group of 20 volunteer Software Engineers in a SCRUM environment to develop a programming educational app that will teach JavaScript, HTML, and CSS.
- Languages/Frameworks: TypeScript, Nest.js, React.js, GraphQL, PostgreSQL
- Debugging issues with client side rendering
- Implementing stylized react components

GENERAL ASSEMBLY - TORONTO, ONTARIO
Software Engineering Immersive| Feb 2020 - May 2020

Full time Software Engineering Immersive course that included 400 hours of professional training for Fullstack Web Development. Projects completed below:

1. **Air Hockey Arcade Game:** Designed and programmed a Frontend two-player air hockey game.
- Languages/Frameworks: HTML5, HTML Canvas, JavaScript, jQuery, CSS, CSS Animate framework

2. **Goalie Rental RESTful API:** Programmed a RESTful API for a goalie rental app for hockey, lacrosse, and soccer. This API was used as part of a React Front End for capstone project.
- Languages/Frameworks: Node.js, Express.js, MongoDB, Mongoose, MongoDB Atlas, JavaScript

3. **Dealish**: A Fullstack Django app to find the best restaurant deals and happy hours in your area.
- Languages/Frameworks: Python, Django, CSS, Bootstrap, jQuery, PostgreSQL, Google maps API, PostGIS, JavaScript

GENERAL ASSEMBLY - TORONTO, ONTARIO
Software Engineering Immersive| Feb 2020 - May 2020

4. **Goalie Rental Fullstack MERN App:** A Fullstack MERN (MongoDB, Express.js, React.js, Node.js) app used for finding rental goalies for a hockey, soccer, or lacrosse game.
- Languages/Frameworks: React.js, Node.js, Express.js, MongoDB, Bootstrap

PREVIOUS EXPERIENCE

HONDA CANADA INC. - MARKHAM, ONTARIO
Vehicle Quality Satisfaction Analyst| May 2017 - Feb 2020

JD Power Initial Quality Study subject matter expert. Team lead in identifying Canadian customer issues and resolving concerns with multidisciplinary team.

FORD MOTOR COMPANY OF CANADA - OAKVILLE, ONTARIO
Powertrain Plant Vehicle Team Engineer| Jun 2016 - May 2017

Resolved plant related issues by performing root cause analysis, identifying and implementing countermeasures. Daily communication with all plant personnel: Quality Managers, Line Supervisors, Vehicle Repairmen, Tools Group, and Line Employees.

FORD MOTOR COMPANY - DEARBORN, MICHIGAN
